

SAFETY DATA SHEET

ALPHAMAT

SECTION 1: Identification of the substance / mixture and of the company / undertaking

1.1. Product identifier Product

name :ALPHAMAT

1.2. Relevant identified uses of the substance or mixture and uses advised against

Use of the Product :Water-based paint for interiors.

1.3. Information on the supplier of the safety data sheet

Registered office
Akzo Nobel Coatings SpA Via
C. Goldoni, 38/40
20090 Trezzano sul Naviglio
(MI) Italy

Administrative headquarters
Akzo Nobel Coatings SpA Via
G. Pascoli, 11
28040 Dormelletto
Tel .: +39 0322 401611
Fax .: +39 0322 401607
Internet: www.sikkens.it

E-mail address of the Responsible person of the safety data sheet :service.clienti@akzonobel.com

1.4 Emergency telephone number

Telephone number :+39-0322-401611 (active 24/7)

International Sikkens emergency number: +31 71 3086944 (active 24/7)

Version : 8

Date of issue : No previous validation.
previous one

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

Product definition:Blend

Classification according to EC Regulation No. 1272/2008 [CLP / GHS]

Not classified.

Ingredients of unknown toxicity : 0%

Ingredients of unknown ecotoxicity : 0%

Classification according to Directive 1999/45 / EC [DPD]

This product is not classified as dangerous according to Directive 1999/45 / EC and its amendments.

Date of issue / Date of revision :10-3-2014.

Page: 1/10

SECTION 2: Hazards identification

Classification : Not classified.

See section 16 for the full text of the R-phrases or H-statements mentioned above. For more detailed information on health effects and symptoms, see Section 11.

2.2. Label elements

Warning : No warnings.

Hazard statements : No known significant effects or critical hazards.

Precautionary advice

General : P102 - Keep out of reach of children.
P101 - If a doctor is consulted, have the product container or label available.

Prevention : P262 - Avoid contact with eyes, skin or clothing.

Reaction : P312 - If you feel unwell, call a POISON CENTER or doctor. Not applicable.

storage :

Disposal : P501 - Dispose of product and container in accordance with local, regional, national, international regulations.

Additional elements of the label : Contains 1,2-benzisothiazol-3 (2H) -one and a mixture of 5-chloro-2-methyl-2H-isothiazol-3-one [EC no 247-500-7] and 2-methyl-2H-isothiazol-3 -one [EC no 220-239-6] (3: 1). It can cause an allergic reaction. Safety data sheet available on request.

Annex XVII - Restrictions on the manufacture, placing on the market and use of certain substances, preparations and articles dangerous : Not applicable.

Special Packaging Obligations

Containers that must be equipped with a child safety lock : Not applicable.

Tactile warning of danger : Not applicable.

2.3. Other dangers

Other dangers not mentioned in the classification : None known.

SECTION 3: Composition / information on ingredients

Substance / mixture : Blend

There are no ingredients which, in the current knowledge of the supplier and in the applicable concentrations, are classified as harmful to health or the environment, meet the PBT or vPvB criteria or which have been assigned an occupational exposure limit and which must therefore be reported in this section.

SECTION 4: First aid measures

4.1. Description of first aid measures General

: If in doubt or if symptoms persist, seek medical attention. Never give anything by mouth to an unconscious person. If the victim is unconscious, have him assume the safety position and call the doctor.

Eye contact : Check for contact lenses and if so, remove them. IMMEDIATELY flush eyes with running water for at least 15 minutes, holding eyelids apart. Consult a physician immediately.

Inhalation : Bring to fresh air. Keep the person warm and at rest. In case of lack of breathing, irregular breathing or respiratory arrest, give artificial respiration or have oxygen administered by trained personnel.

SECTION 4: First aid measures

- Skin contact** : Remove contaminated clothing and shoes. Wash thoroughly with soap and water or use an effective skin cleanser. DO NOT use solvents or thinners.
- Ingestion** : If swallowed, seek medical advice immediately and show the container or label. Keep the person warm and at rest. DO NOT induce vomiting.
- Protection of rescuers** : No action shall be taken involving any personal risk or without suitable training.

4.2. Most important symptoms and effects, both acute and delayed

There are no data available on the mixture itself. The preparation is not classified as dangerous according to Directive 1999/45 / EC and its amendments.

Contact of the liquid with the eyes can cause irritation and reversible damage.

If known, the delayed and immediate effects, as well as the chronic effects of the components deriving from short and long-term exposure, by the oral and dermal route, by inhalation and by contact with the eyes, are taken into account.

4.3. Indication of any immediate medical attention or special treatment needed

- Notes to the physician** : Treat symptomatically. If large quantities are ingested or inhaled, contact a poison control center immediately.
- Specific treatments** : No specific treatment.

See Section 11 for Toxicological Information (Section 11)

SECTION 5: Firefighting measures

5.1. Extinguishing media

Suitable extinguishing media : Recommended: alcohol resistant foam, CO₂, powders, water spray.

Unsuitable extinguishing media : Do not use full jet water.

5.2. Special hazards arising from the substance or mixture

- Hazards arising from the substance or mixture** : Any fires develop thick black smoke. Exposure to decomposition products can be dangerous to health.
- Dangerous products from thermal decomposition** : Decomposition products may include the following materials: carbon monoxide, carbon dioxide, smoke, nitrogen oxides.

5.3. Recommendations for firefighters

- Special actions of protection for firefighters** : Cool closed containers exposed to flames with water. Do not channel the products of a fire into drains or water courses.
- Special protective equipment for personnel fire fighting** : The use of a self-contained breathing apparatus may be required.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

- For those who do not intervene directly** : Avoid breathing vapors or mists. Consult the protective measures listed in sections 7 and 8.
- For those who intervene directly** : If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency service operators".

SECTION 6: Accidental release measures

- 6.2. Environmental precautions:** Do not dispose of the product in the sewer system and water courses. In case of contamination by the product of lakes, rivers or waste water, inform the competent authorities in accordance with current legislation.
- 6.3. Methods and materials for: containment and for** Contain and collect any spills with non-combustible absorbent material, such as sand, earth, vermiculite, diatomite and dispose of the product in a container in accordance with current legislation (see Section 13). Clean, preferably using a detergent. Avoid using solvents.
quenching and tempering
- 6.4. References to other sections** : For emergency telephone numbers, see Section 1.
See Section 8 for information on appropriate personal protective equipment.

For more information on waste treatment, refer to Section 13.

SECTION 7: Handling and storage

The information contained in this section contains general information and warnings. Refer to the list of Identified Uses in Section 1 for specific information available provided in the exposure scenario (s).

- 7.1. Precautions for Safe Handling** : Avoid contact with eyes and skin. Avoid inhalation of vapors, sprays and nebulizations.
It is forbidden to eat, drink and smoke in areas where the material is handled, stored or treated.
Put on appropriate personal protective equipment (see Section 8).
Never empty the product by subjecting it to pressure. The container is not pressurized.
Always keep the material in the original container.
Observe the provisions of the laws relating to health and safety in the workplace.

Do not dispose of the product in the sewer system and water courses.
- 7.2. Conditions for safe storage, including any incompatibility** : Arrange for storage in compliance with current legislation. **Notes on shared storage**
Keep away from: oxidizing agents, strong alkalis, strong acids. **Additional information on storage conditions**
Store in a dry, cool and well-ventilated area. Keep the container tightly closed.

Smoking prohibited. Access prohibited to outsiders. Open containers must be carefully resealed and kept straight to prevent accidental product spillage.
- 7.3 Specific end uses**
- Warnings** : Unavailable.
- Specific guidelines for the industrial sector** : Unavailable.

SECTION 8: Exposure controls / personal protection

The information contained in this section contains general information and warnings. Refer to the list of Identified Uses in Section 1 for specific information available provided in the exposure scenario (s).

- 8.1. Control parameters**
- Occupational exposure limits** No exposure limit value known.

SECTION 8: Exposure controls / personal protection

Monitoring Procedures: Recommended

If this product contains ingredients with exposure limits, personal, workplace atmosphere and biological monitoring may be required to determine the effectiveness of ventilation or other control measures and / or the need to use protective equipment respiratory. Refer to the monitoring standards, such as the following: European standard EN 689 (Atmosphere in the workplace - Guidance on the assessment of exposure by inhalation to chemical compounds for the purpose of comparison with limit values and measurement strategy) Standard European EN 14042 (Atmospheres in the workplace - Guide to the application and use of procedures for assessing exposure to chemical and biological agents) European standard EN 482 (Atmospheres in

DNEL / DMEL

No DNEL / DMEL available.

PNEC

No PNECs available.

8.2. Exposure controls Appropriate

engineering controls

: Provide adequate ventilation. When reasonably possible, this can be achieved by means of replacement ventilation and good general aspiration.

Individual protection measures

Hygiene measures

: Before eating, smoking and using the lavatory and at the end of the working period, wash your hands, arms and face thoroughly after handling chemicals. Appropriate techniques should be used to remove potentially contaminated clothing. Wash the contaminated garments before reusing them. Make sure that the eyewash stations and emergency showers are close to the place of use.

Eye / face protection

: Use protective goggles to prevent accidental penetration of liquids into the eyes.

Skin protection

Hand protection

There is no glove material or combination of materials that provides unlimited resistance to any single chemical or combination of chemicals.

The breakthrough time must be greater than the time of use of the product.

Follow the instructions and information provided by the glove manufacturer regarding use, storage, maintenance and replacement.

Gloves must be replaced regularly and whenever there are signs of damage to the material they are made of.

Always ensure that gloves are free from defects and that they are stored and used correctly. The performance or effectiveness of the glove can be reduced by physical / chemical damage and poor maintenance. Sunscreen creams can protect exposed areas of the skin, but do not apply them after exposure.

Gloves

: For prolonged or repeated handling, use the following types of gloves:

Recommended: nitrile rubber, neoprene, butyl rubber

Not recommended: natural rubber (latex), polyvinyl alcohol (PVA)

Recommendations on the type or types of gloves to use when handling this product are based on information from the following source:

The user must check that the final choice of type of glove for handling this product is the most appropriate and takes into account the particular conditions of use, as specified in the user's risk assessment.

Device of body protection

: Not applicable.

Other devices of skin protection

: Choose appropriate footwear and any additional skin protection measures based on the activity being carried out and the inherent risks. Such choices must be approved by a specialist before handling this product.

SECTION 8: Exposure controls / personal protection

Respiratory protection : In general, respiratory protection is not required.

Respiratory protection in case of dust or spray mist formation. (particulate filter EN143 type P2)

Respiratory protection in case of vapor formation. (half mask with A2-P2 combined filter up to concentrations of 0.5% by volume.)

Environmental exposure controls : Do not dispose of the product in the sewer system and water courses.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Appearance

Physical state	: Liquid.
Color	: Unavailable.
Odor	: Unavailable.
Odor threshold	: Unavailable.
pH	: Unavailable.
Melting point / freezing point	: Unavailable.
Initial boiling point and boiling range	: 100 ° C
Flash point	: Not applicable.
Evaporation rate	: Unavailable.
Upper / lower flammability or explosive limits	: Unavailable.
Vapor pressure	: Unavailable.
Vapor density	: Unavailable.
Relative density	: 1.541
Solubility (ies) Solubility in water	: Easily soluble in the following materials: cold water. : Unavailable.
Partition coefficient: octanol / water	: Unavailable.
Temperature of self-ignition	: Unavailable.
Temperature of decomposition	: Unavailable.
Viscosity	: Kinematic (room temperature): 10.38 cm ² / s Not
Explosive properties	: available.
Oxidizing properties	: Unavailable.

9.2. Other information No additional information.

SECTION 10: Stability and reactivity

10.1. Reactivity : No specific test data related to reactivity available for this product or its ingredients.

10.2. Chemical stability : The product is stable under the recommended handling and storage conditions (see section 7).

10.3. Possibility of reactions: Under normal conditions of storage and use, hazardous reactions will not occur. **dangerous**

10.4. Conditions to avoid: If exposed to high temperatures it can produce dangerous decomposition products.

SECTION 10: Stability and reactivity

10.5. Incompatible materials: To avoid strong exothermic reactions, keep away from the following materials: oxidizing agents, strong alkalis, strong acids.

10.6. Products of dangerous decomposition : Under normal conditions of storage and use, hazardous decomposition products should not be produced.

SECTION 11: Toxicological information**11.1. Information on toxicological effects**

There are no data available on the mixture itself. The preparation is not classified as dangerous according to Directive 1999/45 / EC and its amendments.

Contact of the liquid with the eyes can cause irritation and reversible damage.

If known, the delayed and immediate effects, as well as the chronic effects of the components deriving from short and long-term exposure, by the oral and dermal route, by inhalation and by contact with the eyes, are taken into account.

Acute toxicity

Conclusion / Summary : Unavailable.

Acute toxicity estimates

Unavailable.

Irritation / Corrosion

Conclusion / Summary : Unavailable.

Awareness raising

Conclusion / Summary : Unavailable.

Mutagenicity

Conclusion / Summary : Unavailable.

Carcinogenicity

Conclusion / Summary : Unavailable.

Reproductive toxicity

Conclusion / Summary : Unavailable.

Teratogenicity

Conclusion / Summary : Unavailable.

Specific target organ toxicity (STOT) - single exposure Unavailable.

Specific target organ toxicity (STOT) - repeated exposure Unavailable.

Aspiration hazard Unavailable.

Other information : Unavailable.

SECTION 12: Ecological information**12.1. Toxicity**

There are no data available on the mixture itself.

Do not dispose of the product in the sewer system and water courses.

The mixture was evaluated using the conventional method of the legislative decree March 14, 2003 n. 65 and is not classified as dangerous for the environment.

Conclusion / Summary : Unavailable.

12.2. Persistence and degradability

Conclusion / Summary : Unavailable.

SECTION 12: Ecological information

12.3. Bioaccumulation potential

12.4. Mobility in soil

Soil / water partition coefficient (K_{oc}) : Unavailable.

Mobility : Unavailable.

12.5. Results of PBT and vPvB PBT

assessment : Not applicable.
P: Not available. B: Not available. T: Not available. Not

vPvB : applicable.
vP: Not available. vB: Not available. No known

12.6. Other adverse effects : significant effects or critical hazards.

SECTION 13: Disposal considerations

The information contained in this section contains general information and warnings. Refer to the list of Identified Uses in Section 1 for specific information available provided in the exposure scenario (s).

13.1. Waste treatment methods

Product

- Methods of disposal** : The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products must always be carried out in accordance with the legal indications on environmental protection and waste disposal and the requirements of each relevant local authority. Dispose of surplus and non-recyclable products through an authorized waste disposal company. Untreated waste should not be disposed of in the sewer system unless it fully complies with the requirements of each entity and legislation.
- Hazardous waste** : Based on the current knowledge of the supplier, this product is not included in the hazardous waste of EU directive 91/689 / EC.
- Observations on the disposal** : Do not dispose of the product in the sewer system and water courses. Dispose of in accordance with applicable regional, state and local laws. If this product is mixed with other wastes, the original refused code can no longer be applied and an appropriate code will need to be assigned. For more information, contact the responsible waste disposal agency.

Packing

- Methods of disposal** : The generation of waste should be avoided or minimized wherever possible. Waste packaging must be recycled. Incineration or landfilling should only be considered when recycling is not practicable.
- Observations on the disposal** : Using the information provided in this safety data sheet, contact the appropriate waste disposal authority for guidance on the classification of empty containers. Empty containers must be discarded or reprocessed. Containers that are not emptied are considered hazardous waste.

Type of packaging	European Waste Catalog
CEPE Paint Guidelines	15 01 10 * packaging containing residues of dangerous substances or contaminated by such substances

- Special precautions** : Do not dispose of the product and the container except with due precautions. Empty containers or liners can retain product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

SECTION 14: Transport information

ADR		IMDG
14.1. UN number	Not regulated.	Not regulated.
14.2. Name of shipment of the UN	-	-
14.3. Classes of connected danger to transport Class	-	-
Secondary class	-	-
14.4. Group packaging	-	-
14.5. Dangers for the environment Marine pollutant Substances marine pollutants	No.	No. Unavailable.
14.6. Precautions special for users	Transport within the user's property: always carry out transport with closed containers, stored vertically and secured to the means of transport. Verify the suitability of the persons carrying out the transport to intervene effectively in the event of an accident and / or spill.	
Number of identification of danger or number Kemler Schemes of emergency ("EmS")	Unavailable.	Not applicable.
14.7 Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code	:Not applicable.	
Information additional	-	-

SECTION 15: Regulatory information

15.1. Standards and legislation on health, safety and environment specific for the substance or mixture [EU](#)

[Regulation \(EC\) No. 1907/2006 \(REACH\)](#)

[Annex XIV - List of substances subject to authorization](#)

[Substances of Extremely Concern](#)

None of the components are listed.

Annex XVII - Restrictions:Not applicable. **in the field of**
manufacturing,
placing on the market and use
of certain substances,
preparations and articles
dangerous

SECTION 15: Regulatory information

Other EU regulations

- VOC for ready-to-use mixtures** : Not applicable.
- European inventory** : At least one component is not listed.
- Chemical substances of the list of priorities (793/93 / EEC)** : Present

National standards

- Legislative Decree 152/06 : Not classified.

15.2. Chemical safety assessment

:Not applicable.

SECTION 16: Other information

- CEPE code** : 7
- Abbreviations and acronyms** : ATE = Estimation of Acute Toxicity
CLP = Classification, Labeling and Packaging [Regulation (EC) No. 1272/2008] DNEL = Derived No Effect Level

Notice to the reader

IMPORTANT NOTE. The information contained in this sheet is not to be considered exhaustive and is based on our current technical knowledge and on the laws in force: anyone who uses the product for purposes other than those specifically suggested in the technical sheet, without having previously obtained our written authorization, does so. at your own risk. It is always the user's responsibility to take all necessary measures to comply with the requirements of local laws. Always read the safety data sheet and the technical data sheet of this product, if available. All suggestions or statements made by us regarding the product (whether in this sheet or otherwise) are correct to the best of our knowledge, however, the quality or condition of the media or the many external factors affecting the use and application of the product are beyond our control. Consequently, in the absence of a specific written agreement, we accept no responsibility for the performance of the product or for any loss or damage resulting from its use. All products and technical advice provided comply with our standard terms and conditions of sale. We recommend that you ask for a copy of this document and read it carefully. The information contained in this sheet is subject to periodic changes, in the light of the experiences acquired and our policy of continuous development. It is the user's responsibility to verify that this sheet is up to date before using the product.
